Art Unit: 1771

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

2. Claims 1-64 are rejected under 35 U.S.C. 103(a) as being unpatentable over applicants' admissions in the specification at page 8, line 26 – page 9, line 2 concerning either of the references Shiba et al and WO'540, the admissions taken in view of the remaining corresponding disclosure of the appropriate one of the two references, substantially for the reasons set forth in Paragraph No. 5 of Paper No. 051005, together with the following additional observations. More particularly, applicants argue (Response, page 11, 1st and 2nd paragraphs) that each of the relied upon reference—admissions fail to disclose all elements (i.e., the cling backing) of applicants three independent claims. However, the Examiner can only note that Shiba et al discloses "sheets" (Col 7, line 2) as suitable backings which can include (Col 8, lines 40-41) a PET film which is specifically taught by applicants' specification (page 7, line 15) as a suitable thermoplastic polymeric material that can maintain an electret charge, thus qualifying as a suitable cling backing. WO'540 teaches (page 4, last three lines—page 5, first three lines) a wide variety of synthetic continuous webs which are suitable backings "such as PVC, vinyl, polyester, "Mylar", polyethylene, polypropylene, polyolefin and the like", almost all of which are specifically taught by applicants' specification as suitable. Since applicants make essentially no other specific traversals of the aforementioned prior art rejections it is respectfully submitted that applicants have failed to rebut the prima facie case of record.

3. THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
